

# Demonstrations of Abundance:

## **Share Your Story!**

Once you have begun to tithe, watch for the results to show up in your life! Perhaps it is a new job opportunity, a new offer, a gift, even money you stashed away and forgot about showing itself again! It could be anything from a neighbour offering to mow your lawn to a parking meter already filled with money for your parking place. Watch for ways that God and guru provide for your good, knowing that you have devoted your 10% in honour to Them.

Because it's easy to forget these instances (but so inspiring to others and even to yourself when you remember them!), please write them down in a journal or notebook. There may be a time when you join together with other devotees in the Tithing Project to share your stories! Or, feel free to use this form to record them:
